I support the following principles of AIFRTE and wish to work as a Campaign Associate:

- ***The aim of education is to contribute to building a democratic, socialist, secular, just, enlightened and humane society based on diversity, plurality and equality.***
- ***Providing education to every child, adolescent and youth is the Constitutional obligation of the state and there is no place for discrimination in any form whatsoever including discrimination based on class, caste, gender, religion, language, region or disability. Social justice to the oppressed, the deprived and the disabled should be organically built into the education system.***
- ***It is the responsibility of the state to establish a nationwide, fully state-funded and entirely free Common Education System, based on mother tongue in multi-lingual context as medium of education, at all levels from 'KG to PG' including professional education and research. It includes establishing a Common School System based on Neighbourhood Schools to be governed in a democratic, federal and participative mode to exclude disparities and optimize diversities.***
- ***There is no place in education for communalism, majoritarianism or any form of hegemony based on religion, class, caste, gender, region, language, race, or normal body. There is no place either for negation, dilution or distortion of India's rich diversity.***
- ***AIFRTE rejects all laws and policies for trade or profiteering, Foreign Direct Investment (FDI), international funding and/or Public Private Partnership (PPP). It rejects loans from Government agencies, Banks or the market, whether personal or institutional, at any level of education.***
